Introduction

Communications Professionals Inc. (CPI), based in Troy, MI manages the technology needs of small businesses, hotels, healthcare facilities, and government agencies, locally, nationally, and internationally. We offer our clients access to a broad array of technology solutions, ranging from desktops, notebooks, storage and printers to advanced networking, Wi-Fi, mobility, security and professional services. In addition to supporting hundreds of thousands of products from leading manufacturers like Apple, Cisco, HP, and IBM, CPI has a robust offering of services including professional and management services.

As a Small Minority Owned Disadvantaged Business certified by the Small Business Administration, CPI is committed to exceptional service, quality products, and integrity in business.

Core Capabilities

IT Hardware Software Peripherals

Communications Professionals, has been in the business of IT hardware, software, and peripherals for over 20 years, and in that time we have created Platinum relationships with our distributor partners in order to cut IT acquisition costs. With over 2M product brands, we have the expertise and the experience to guarantee our customers, both a superior product, as well as competitive pricing.

Our IT Security practice is cutting edge. CPI offers the latest and greatest no matter whether it's Access Control Systems, VPN, or the Cloud. Our advanced technicians are proven solution providers and have the capability to create a custom solution to fit your unique security needs. Due to the fact that we are also Government Solution Providers and Security Experts, any solution we recommend has the highest levels of practice.

IT Security

Our very skilled engineers in tandem with our robust IT product partners allows us to offer the very best services in the market. Print Management, Web Design, Web Hosting and Programming, IT Staffing, and IT Consulting, to name of few have become services that our clients of all verticals have come to rely on. Our Professional Solutions are geared towards helping each individual business achieve their individual IT goals. Our track record is one that speaks for itself.
